of Biological Material

9. ☐ Other ___.

Art Unit: 2875

DETAILED ACTION

Page 2

Allowable Subject Matter

- 1. Claims 1-6 are allowed.
- 2. The following is an examiner's statement of reasons for allowance: The prior art cited does not anticipate individually or teach in combination the following:
 - Morgan et al (6,967,448) although disclosing an multicolored illumination system for a pool with remote control means and a motion sensor for detecting an environmental condition, Morgan et al does not disclose the combination of specifically, first and second safety rails situated proximate a stair assembly for a swimming pool, a motion detector mounted on the first safety rail said motion detector emitting a beam between the safety rails, a generator arranged to generate electrical output from the circulating water generated by a pump, a light mounted proximate the stair assembly and light being operatively connected to the electrical output, the arrangement being such that when the motion detector detects motion between the safety rails, the light is activated for a predetermined period of time.
 - Poteet, although teaching a swimming pool alarm system with a plurality of motion sensor beams that extend around the periphery of the swimming pool so that when crossed or interrupted will create a warning alarm that will alert a pool owner that someone is close to entering into the water, Poteet does not disclose the combination of specifically, first and second safety rails situated proximate a stair assembly for a swimming pool, a motion detector mounted on the first safety

rail said motion detector emitting a beam between the safety rails, a generator arranged to generate electrical output from the circulating water generated by a pump, a light mounted proximate the stair assembly and light being operatively connected to the electrical output, the arrangement being such that when the motion detector detects motion between the safety rails, the light is activated for a predetermined period of time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Anabel M. Ton whose telephone number is (571) 272-2382. The examiner can normally be reached on 08:00-16:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sandra O'Shea can be reached on (571) 272-2378. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
